

THE SPLENDID PROCESS

STEP 1: FIRST DATE

SHD STUDIO

This is the start of our Splendid collaboration. Think of it as a first date! Beginning with an introduction to our designer team, we will learn more about each other and get inspired by your vision for your living spaces. We will learn about each other and will guide you through our design process as well as establish a scope for your project. Bring all of your questions, inspiration and ideas! The primary goal of this meeting is to ensure a good fit between client and design team.

NOTE:

At the conclusion of this meeting, a retainer will be collected in order to begin the custom design process. Retainers typically range between 5-10% of total scope and are applied to the final balance of your project.

STEP 2: SMART START

PROJECT SITE

The design team will visit your space and take photos and measurements as needed. Materials and layout concepts will be discussed as we gather more information about you and your project. This will give us the ability to set the foundation for the project with all of the bases covered to ensure we start smart and finish strong!

STEP 3: DEVELOP DESIGN & SELECTIONS

SHD STUDIO

Our team will develop floor plans, elevations, and 3D renderings of the space as well as product and material selections. We will meet with you in our studio to refine cabinet layout, countertop, flooring, electrical, plumbing, accessories, and all other selections. Product specialists will be consulted as needed.

NOTE:

The time between step 2 and 3 varies based on the scope of the project, but can typically take a few weeks.

STEP 4: LAUNCH MEETING

PROJECT SITE

The design and construction team will meet on site with prospective trade professionals to verify final measurements, finalize labor costs, and establish preliminary schedule requirements for permitting and construction tasks. Many critical details are involved at this stage of the project to ensure a smooth and efficient construction process prior to starting.

STEP 5: SPLENDID PRESENTATION & SIGN OFF

SHD STUDIO

Once all of the details are finalized, you will come into our studio to review each carefully made selection and design choice for your space. The goal of this meeting is to finalize all of the details of your project's scope. All decision makers must be present at this meeting to ensure everyone's ideas, questions, and needs are addressed. Deposits to commence scheduling and ordering are typically due at this time.

NOTE:

Timely approval of the final design is crucial for maintaining accurate pricing and delivery dates.

STEP 6: INSTALL & PROJECT CONCLUSION

PROJECT SITE

This is where the construction process starts. Permits have been submitted, installation packets are created for each trade, material delivery dates have been confirmed, and the schedule has been detailed. Throughout the course of construction, the project manager will regularly visit your site to ensure that everything is on track and help address any findings along the way. Once the work is complete, the client will receive warranty, care, and service information. Now it's time to enjoy your splendid space!
